Hung Ta / PRODUCT CATALOGUE

HT-2706TF

Series Tire Stiffness Testing Machine

Tire stiffness measurement for vehicle dynamics simulation.

Product overview

Measures lateral, longitudinal & torsional tire stiffness for vehicle dynamics simulation. 6-component force/moment measurement.

Technical specifications

Measurement	6-component force/moment
Stiffness Types	Lateral, longitudinal, torsional

Typical applications

Tire R&D / Vehicle dynamics simulation

Referenced standards

ISO 18164

Configuration & quotation

Send the specimen material and dimensions, required force range, test method and factory location. Confirm the supplied machine, fixtures and accessories in the quotation.

Specifications are reference values for configuration review. Contact Hung Ta Instrument for the current supplied configuration.
