Charpy Impact Testing Machines

Pendulum impact tester for fracture energy measurement.

Product overview

Pendulum Charpy impact tester measuring energy absorbed during fracture. 150J/300J/450J capacities. Digital angle display. Auto pendulum release.

Technical specifications

Capacities	150J / 300J / 450J
Display	Digital angle
Release	Auto pendulum

Typical applications

Metals testing / QC laboratories / Material qualification

Referenced standards

ISO 148-1 / ASTM E23

Configuration & quotation

Send the specimen material and dimensions, required force range, test method and factory location. Confirm the supplied machine, fixtures and accessories in the quotation.

Specifications are reference values for configuration review. Contact Hung Ta Instrument for the current supplied configuration.
