Rotary Bending Fatigue Testing Machines

Rotating bending fatigue for S-N curve generation.

Product overview

Rotating bending fatigue machine for S-N curve generation. Variable speed motor with cycle counter. Essential for aerospace & automotive qualification.

Technical specifications

Test Type	Rotating bending fatigue
Output	S-N curve
Motor	Variable speed with cycle counter

Typical applications

Aerospace / Automotive / Material qualification

Referenced standards

ISO 1143 / ASTM E466

Configuration & quotation

Send the specimen material and dimensions, required force range, test method and factory location. Confirm the supplied machine, fixtures and accessories in the quotation.

Specifications are reference values for configuration review. Contact Hung Ta Instrument for the current supplied configuration.
