HT-9711-D300

Dynamic Fatigue Testing Machine (100~300 kN)

Heavy-duty dynamic fatigue for large structural specimens.

Product overview

Heavy-duty 100~300kN dynamic fatigue machine for large structural, aircraft & civil engineering specimens. Damage accumulation modeling.

Technical specifications

Capacity	100 ~ 300 kN
Application	Aircraft, civil engineering

Typical applications

Aerospace / Civil engineering / Large structural testing

Referenced standards

ISO 1099 / ASTM E466

Configuration & quotation

Send the specimen material and dimensions, required force range, test method and factory location. Confirm the supplied machine, fixtures and accessories in the quotation.

Specifications are reference values for configuration review. Contact Hung Ta Instrument for the current supplied configuration.
