Hung Ta / PRODUCT CATALOGUE

HT-9711-E200

Dynamic Fatigue Testing Machine (200 kN)

200kN for vehicle frames & aerospace structures.

Product overview

200kN servo-hydraulic fatigue machine for vehicle frames, large forgings & aerospace structures. Adaptive high-frequency control.

Technical specifications

Capacity	200 kN
Control	Adaptive high-frequency

Typical applications

Vehicle frames / Aerospace structures / Large forgings

Referenced standards

ISO 1099 / ASTM E466

Configuration & quotation

Send the specimen material and dimensions, required force range, test method and factory location. Confirm the supplied machine, fixtures and accessories in the quotation.

Specifications are reference values for configuration review. Contact Hung Ta Instrument for the current supplied configuration.
